

## Snapshot survey of bed occupancy in hospital by people with diabetes in Europe

Dear Colleagues

FEND wishes to carry out a simple snapshot survey to ascertain the number of people with diabetes who are in hospital (in all departments) during a single 24 hour period (at your convenience) between 14 – 31 November 2008.

We would greatly value your co-operation in this pilot survey. Subject to a positive response our intention is to repeat the survey in a more comprehensive manner in November 2009. Be assured that this information will be anonymised and will be published as a numerical snapshot of bed occupancy.

Thank you in advance for your cooperation.

Anne-Marie Felton  
FEND President
